## Pleads Capital's Right As Heart of America

Mrs. Ellis Logan, President of Federation of Woman's Clubs, Points Out Wonderful Opportunities that Washington Offers to the People of the Nation.

"Washington is ideally equipped to take its place as the heart of America. The center from which all of the country's power radiates," said Mrs. Logan, president of the Federation of Woman's Clubs, speaking on a subject to which she has given a thorough study, the prospects and potentialities of the National Capital.

"Our city is the National Capital—the seat of government. But to the world a nation's capital must be the center of the nation in all respects. Paris claims all famous Frenchmen, renowned German scientists are said to have lived in Berlin and Vienna, and so it is with Washington. It is the center of the nation's life, and it is the center of the nation's future."

"And now the iron is hot and the time ripe. The complete culture of social and intellectual life in Europe is driving the world's great men to America. 'Seekers after social diversion in a delightful climate will find Washington a city not only cosmopolitan, but American,' said Mrs. Logan. 'It can provide every comfort and luxury for discriminating ones in the most cultured and dignified sense. Men and women in all walks of life will find American achievement splendidly represented in Washington and will also discover a city with a pleasing individuality unique among other cities.'"

"We are not distinctly Northern nor definitely Southern in our life and sympathies. We are absolutely cosmopolitan. I take this opportunity to express the combined admiration of Europe and Florida will come to Washington."

"Musicians of world renown already are planning American tours with Washington as their headquarters. Rumors are afloat that we are to have a grand opera season again. Any one desirous of studying music is thus offered special facilities here. And it is the forgotten fact that some of the best-known musical organizations of the country are our local organizations."

"For artists there is the Corcoran Gallery with the biennial exhibition in December."

## ON THE FIRING LINE

## What it means to most men.

There are many true heroes that have perished in the European war who "never smelled powder," but who succumbed to sickness after hard campaigning—coupled with bad water and lack of food. The sick and debilitated man is as much out of place in his struggle for life and existence as he would be on the firing line. On the other hand the strong, vigorous man, his veins filled with rich, red blood, has an enormous advantage in whatever position he may be fated to occupy, in war or business.

The prompt and certain action of Dr. Pierce's Golden Medical Discovery in driving all harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased members where catarrh flourishes unchecked or where the skin gives warning of the bad blood beneath by showing pimples and boils, also the skin clears up and becomes wholesome and ruddy.

Thus by building up a new and perfect covering and carrying on of the system the Catarrh infested matter by way of the blood, liver and kidneys, Catarrh is overcome and permanently conquered.

There is not a drop of alcohol or any narcotic in Dr. Pierce's Golden Medical Discovery, but in this safe vegetable remedy there is a mighty alternative power which by replacing the blood impurities with pure, rich blood, not only cures Catarrhal conditions wherever located, but vitalizes the kidneys, stomach, liver, bowels, and every organ of the body. People who suffer from Catarrh and mental misery because of Pimples, Skin rash, Blisters, Eruptions, Boils, Carbuncles, are especially benefited. It is not a secret remedy for its ingredients are printed on wrapper.

member of this year. Then our leading artists will be here, and there will be many social affairs in their honor. There is the National Gallery of Art which is being added to intelligently year by year and already has become one of the most interesting collections of our country.

"Scientists and physicians come to the city for study in our museums, the former finding material for life study in the National Museum and the Smithsonian collection, while the latter congregate at the gruesome displays of our Medical Museum."

"The social life of the National Capital long has been one of its features, our theaters providing good amusements, our 'Four Hundred' consisting of the cream of the 'best people' of other cities. The ballrooms of the city are famous for their exclusive and elaborate entertainments, and official functions, glitter with the uniforms and gold braid of military and naval commanders."

"There are all sorts of men's clubs from the exclusive Metropolitan and Cosmos clubs, the Army and Navy and University clubs down to humbler social organizations. Many of the States have their State societies."

"The Federation of Women's Clubs will hold open meetings every Saturday morning at the Public Library to which every woman is invited. A special feature of the work this year is to be a 'club table' in one of the large department stores where a member of the federation is to preside every Saturday afternoon, providing a public headquarters and meeting place for club women strangers in the city."

"Educationally Washington has a splendid reputation. Its public schools, with the children of the best families, are the pride of the city. But we simple models and this year the private seminaries and colleges already are filling with the children of the best families."

"For prospective students of Washington it may prove interesting to learn that the most epicurean appetite can be satisfied in our markets and importing grocery establishments, your shoes rank with those of all other cities, while those merchants who make a specialty of importing, place the world at the feet of the buyer. So cosmopolitan are the crowds at every public gathering that the garment made in Alaska often rubs shoulders with the product of dressmakers in Tampa, Florida. But we simple tailored suit answers for every occasion."

"In fact the best testimonial for Washington is the number of people who love it. No one who has ever lived here falls to return again and again."

## FURTHER REDUCTION AT PENSION BUREAU

Commissioner Saltzger Says More Clerks Are Likely to Be Dropped at End of Fiscal Year.

Another sweeping reduction of forces in the Pension Office, at the end of the present fiscal year, was hinted at in the annual report of the Commissioner of Pensions, issued yesterday. The report says that the government is under no moral or legal obligation to keep the employees in the service when there is no work to be done.

Commissioner Saltzger says, in his report, that it is with deep regret that the officials make these reductions, and states that they do all in their power to leave those most deserving of being maintained. In the case of every employ effect, great and solicitude was taken. Notwithstanding all this, each one affected thought he had a personal grievance, claiming that others should have been demoted or dropped and pleading personal needs and personal merits. All this made the task a very difficult one as well as a sad one.

Each person had and has his own ideas about retirement laws and civil service pensions, but these subjects are wholly within the province of and to be determined by the Congress. The situation could only be dealt with as it was. Other lessons are that the work of the Pension Bureau is diminishing; that the number of old soldiers and their widows is decreasing rapidly; that the act of May 11, 1912, as amended by the act of March 4, 1914, has greatly curtailed the work to be done in their behalf; that the force now in the bureau must be still further largely reduced."

## BUILDING AND LOANS NOT HIT BY WAR TAX

Measure, Pending in Senate, Will Not Affect Those in District, Is Belief.

That the majority of the building and loan associations of the District of Columbia will not be affected by the passage of the war revenue bill now pending in the Senate is the belief of many members of the Building Association Council of the District and of individual attorneys retained by various associations. The bill in its present form does not exempt such associations from taxation, because of which the United States League of Local Building and Loan Associations, at a recent convention in Washington, lodged a formal protest in Congress.

The House answered the protest by exempting them from a stamp tax on their stock certificates and bond issues, but the Senate has not acted yet on the protest.

## CHINESE PAIR TO AIR TROUBLES IN COURT

Moy Sing Answers Wife's Suit for Divorce, Flatly Denying Her Charges.

Some justice of the District Supreme Court will have a real Chinese puzzle to solve when the marital troubles of Moy Sing and his wife, May Sing, both Chinese, come up for trial. Moy filed an answer yesterday to his wife's suit for absolute divorce.

May Sing, in her bill of complaint, filed a few weeks ago, alleges that her spouse went through a marriage ceremony with a white rival in New York, while she, with his consent, was visiting friends and relatives in San Francisco, her former home. On her return here, she alleges, Moy refused to support her, although, she avers, he was living with the rival, whose name she gave as "Lena Benson."

Moy begins his answer with the flat assertion that he never heard of "Lena Benson." Furthermore, he says his wife provided him with funds to go to Chicago in search of employment, and that she refused to come on with him when he returned. That brought him back to this city, but he says his wife refused to live with him. Neither husband or wife speaks English, Attorney R. L. Miller appears for Moy.

## ARMY REFORM MAY COME.

Rome, Oct. 12.—Gen. Zupelli, the new minister of war, is likely to make a complete sweep of reform in the Italian military establishment as a result of conditions now prevailing in the army.

## TO SEEK ADVANCE OF NEWMAN CASE

Motion Will Be Made Today by Attorneys for William J. Frizzell in Ouster Suit.

A motion will be made today in the Court of Appeal of the District of Columbia to advance for hearing the appeal of Commissioner Newman from the ouster verdict of a jury in the District Supreme Court. Notice of intention to make the motion was served yesterday upon counsel for Mr. Newman by counsel on the other side. It is understood that the Commissioner's attorneys will not object to advancing the case, although it is questioned whether they could not bring the case to a hearing much sooner. Public welfare will be the ground of the motion.

## CHOLERA SPREADS IN AUSTRIA.

London, Oct. 12.—Cholera is spreading to the most remote parts of Austria-Hungary says a Reuter dispatch from Vienna today. A case has been discovered near the Swiss frontier. The cold weather caught Austrians in Galicia unawares and the authorities are making the most urgent appeal to the public to contribute warm clothing for the sufferers.
